

Brand: Light Breeze

Model: LB-13-H-D-10-B-U-F

Product Overview

The Light Breeze LB-13-H-D-10-B-U-F Power Distribution Unit (PDU) is a reliable and efficient solution designed for safe and organized power distribution in professional environments. Built with a durable aluminum body and high-quality copper internal contacts, this PDU ensures long-lasting performance and stable electrical conductivity.

With its 10 universal outlets, horizontal mounting design, and integrated fuse protection system, it is ideal for use in server racks, offices, industrial setups, and technical workstations where multiple devices require secure and consistent power supply. The inclusion of a 2-meter extended cable and heavy-duty power switch further enhances its usability and flexibility.

Electrical Feature

- Fuse Protection for overload safety
- 13A rated power handling capacity
- Stable copper internal conductivity for efficient power distribution
- Designed for continuous industrial/commercial use

Mechanical Features

- Strong aluminum body construction for durability
- Horizontal rack-mount design for easy installation
- Double-section internal layout for improved wiring management
- Compact and space-efficient design

Technical Specification

Parameter	Specification
Product Type	Rack Mount basic PDU
Model	LB-13-H-D-10-B-U-F
Mounting Type	Horizontal
Section	Double
Number of ports	10
Plug Type	Universal
Fuse Protection	Yes
Cable Type	2.5 rm heavy duty cable
Cable Length	2 meter
Power Switch	yes
Body Materials	Aluminium
Color	Black
Internal Contact	Copper

Safety & Protection

- Built-in Fuse Protection system
- Overload protection support via fuse mechanism
- Copper internal contacts ensure reduced heating and better safety
- Secure industrial-grade housing

Applications

- Server racks
- Office power distribution
- Industrial equipment setups
- Networking cabinets
- Workshop and lab environments

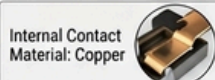

LIGHT BREEZE POWER DISTRIBUTION UNIT (PDU)

TECHNICAL VIEWS

Model: LB-13-H-D-10-B-U-F

Model Name:	LB-13-H-D-10-B-U-F
Socket Type:	10-Way
Rated for Mount:	13A
Aluminun Color:	Double Section for
Standand Masin:	Black
Internal Contact Material:	Copper
Mounting Material:	Copper
Mounting Dimensions:	4.57 x 1.50mm

KEY FEATURES

10-Way Basic PDU with Horizontal Mount, Rated for 13A. Double Section for Efficient Internal Wiring. Durable Aluminum Body with Standard Black Finish. Integrated 2.5 RM Heavy Duty Switch and Built-in Fuse System.
