

LightBreeze Smart Fast Charging Station

Product Overview

The LightBreeze Smart Fast Charging Station is a compact and portable charging solution designed for homes, offices, data centers, and travel applications. Equipped with dual universal AC outlets, USB fast charging ports, and a USB Type-C port, it delivers efficient charging while incorporating intelligent battery protection features.

Key Features

- 2 × Universal AC Output Sockets
- 2 × USB Type-A Fast Charging Ports
- 1 × USB Type-C Fast Charging Port
- Intelligent Fast Charging Technology
- Supports Fast Charging from 1% to 79%
- Automatically switches to normal/slow charging from 80% to 100% to help maintain battery health
- Auto Power-Off when device reaches 100% charge
- Auto Shut-Off when no device is connected
- Lightweight and portable design
- Wide input voltage compatibility for global use
- Built-in safety protection system

Technical Specifications

Parameter	Specification
Brand	Light Breeze
Product Type	Smart Fast Charging Station
Input Voltage	AC 100–250V
Input Frequency	50–60Hz
Universal Socket Output	2 × Universal Socket Combo, 10A
USB Ports	2 × USB Type-A
USB-C Port	1 × USB Type-C
Fast Charging Support	Yes
Auto Charge Management	Yes
Auto Shut-Off (100% Charge)	Yes
Auto Shut-Off (No Load)	Yes
Construction	Lightweight Portable Design

Safety Features

- Overcharge Protection
- Automatic Power-Off at Full Charge
- Automatic No-Load Shutdown
- Battery Health Protection
- Overcurrent Protection
- Short-Circuit Protection
- Wide Voltage Input Protection

Applications

- Mobile Phones
- Tablets
- Smart Watches
- Bluetooth Devices
- Laptops (USB-C Compatible)
- Home & Office Use
- Travel Charging

USB Output Specifications

Output Mode	Rating
Standard Charge	5V = 3A
Fast Charge	9V = 2.22A
Fast Charge	12V = 1.67A
