STANDARD

Comply with EIA-310-E, IEC297-2, DIN41491

PART1, DIN41494 PART7, GB/T3047.2-92 standard,
compatible with ETSI standard.

FEATURES

- Modular design, easy to mounting and dismantle for saving cost
 - Knock down package to lower down transport cost
 - With grounding device
 - Parts are optional, such as cable trough, cable management rail
- Surface treatment procedure is degreasing-->pickling-->anti-rust and phosphorization-->water cleaning-->powder coating, RoHS compliant.

LOADING CAPACITY

- Static loading capacity 300kg (should be uniformly loaded and fixed onto ground)

MAIN MATERIAL

- SPCC cold rolled steel;
- Thickness for rail 1.7mm, thickness for upper and lower beam are 2.2mm。

1U PLASTIC HORIZONTAL RACK MOUNT CABLE MANAGER

Material: Flame retardant ABS material.

Mounting screws included

Fits 19" standard equipment. Accommodates tower units, monitors and other equipment.

Panel included 12 slots for more flexibility. An included plastic panel cover offers your system a more neat and organized look.

Light weight and durable, premium quality craftsmanship.

Color definition:

□□□□□□□□ A Black RAL9005

□□□□□□□□ B Gray RAL7035

Model No	Part name	Size	Packing Dimension	Qty	Usage
KP411401 □	1U plastic horizontal rack mount cable manager	1U	505*100*56	1	19" for cable management
KP411402 □	2U plastic horizontal rack mount cable manager	2U		1	19" for cable management

CABLE DUCT (KP440)

Material: t1.2 SPCC cold rolled steel.
Surface Finish: Degreasing, pickling, phosphoric, powder coated.

Overhead Cable Management System:
Organized, Accessible , Manageable

- Overall cooling efficiency improves because conditioned air is not blocked by cable dams below the plenum.
- Valuable space is opened up within rack enclosures.
- Large high-density bundles lie flat to avoid harsh, damaging bends
- Re-cabling due to moves, adds, and changes is faster and easier—and consequently less expensive.

Color definition:
□□□□□□□□ A Black RAL9005
□□□□□□□□ B Gray RAL7035

Model No	Part name	Size	Application
